

nels, the waters transport our two Heroes, through a very large limestone cave moving down slopes, and bends in what can be described as Niagara's kind of, water falls, or even tsunamis sea waves. Suddenly our two heroes cascade into a deep channel of total darkness. Only the echoes of their screaming voices is still present In the dark underground hell. That too is fast fading out.

A faint light above the Graphite chambers is the only visible thing among the Large pile of Human carcasses. Al opens his eyes, next to him the lifeless body of Anna both at the top of the pile, and ready to be processed.

4DIMENSIONAL SPACE-TIME, ACCORDING TO THE SCHWARZENEGGER'S OF MODERN PHYSICS

Feb 2001

1. EXT: SUMMER 2000 CAMBRIDGE UNIVERSITY GARDENS.

Relaxing under a tree in the green surroundings of the University, ROGER PENROSE, & STEPHEN HAWKING'S are exchanging views on the meaning of TIME.

Close to the 2.

HAWKING

Yes, my dear Roger!!! TIME has no meaning!!!

Our own existence is but an illusion!!!

PENROSE

Stephen, I wonder if GOD had any choice in creating the illusionary TIME!!! or WHATEVER THAT MAY mean!

And then reveal it to men, as the physical quantity that we have come to know!!!

HAWKING

I believe that GOD had no choice in the way this physical quantity was to reveal it self. I also believe that our illusionary perception of the flow of TIME (WHATEVER THAT IS!!!), is a universal one!!!

PENROSE

What do you mean?

HAWKING

I believe that any intelligent multi-cellular Organism like us, would be confined to the same observations that you and I experience every moment of our lives, so that, they too would inevitably confront the same observations that you and I experience moment by moments in our little corner of the world!!!

TIME it is a universal consequence of objects in motion.
